Allowable Subject Matter

1. Claims 1-4, 6-14, 16-24, 26-30 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art is Shkedy (U.S. Patent No. 6,260,024). Shkedy discloses a method for providing a global bilateral buyer-driven system for creating binding contracts between sellers and buyers. However Shkedy fails to teach a first workflow record comprising a primary work flow associated with said first service request and a secondary work flow record associated with a second service request, the second service request associated with said first work flow as recited in independent claims 1, 10-11, 20-21, and 30.

Claims 2-4, 6-9, 12-19, and 22-29 depend from claims 1, 11, 21; therefore claims 2-4, 6-9, 12-19, and 22-29 are deemed to be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
